

Rielly Luiza Duarte da Silva

Recife, Pernambuco, Brazil | rielly.00000854571@unicap.br | +55 (81) 98564-0276 | <https://www.linkedin.com/in/rielly-duarte-370282332/> | <https://github.com/rлуизадuarte>

SUMMARY

Computer Science student at Universidade Católica de Pernambuco (UNICAP) with a strong academic background (GPA 9.57/10) and hands-on experience in software engineering, automated testing, scientific research, and competitive programming. Currently working as a Software Engineering Intern, developing end-to-end automated tests while collaborating in Agile teams using Scrum. Passionate about algorithms, scalable systems, and software quality, with experience leading technical projects and contributing to research on graph algorithms for financial crime analysis. Seeking an opportunity to contribute to production-grade software while continuously growing as a software engineer.

EDUCATION

Universidade Católica de Pernambuco (UNICAP)

Bachelor's Degree in Computer Science, GPA: 9.57 / 10.00

Expected Graduation: Second Semester 2028

EXPERIENCE

Software Engineering Intern

June 2026 – Present

Queen Pitch

- Develop and maintain End-to-End (E2E) automated tests using Cypress.
- Collaborate in Agile development using Scrum, participating in daily stand-ups and team ceremonies.
- Validate software quality across modern web applications built with JavaScript, TypeScript, React, Next.js, and Node.js.
- Work with REST APIs and cloud-based development environments.
- Collaborate through Git-based workflows and actively prepare to contribute to code reviews, bug fixing, and feature development.
- Technologies: JavaScript, TypeScript, React, Next.js, Node.js, Cypress, Docker, Git, AWS, MongoDB, MariaDB, REST APIs.

Undergraduate Research Volunteer

August 2025 – Present

MLEX Research Group

Universidade Católica de Pernambuco (UNICAP)

- Conduct research focused on graph-based algorithms for organizing banking transactions used in money laundering investigations.
- Collaborate with research related to datasets provided by the Pernambuco Civil Police (PCPE).
- Author of the undergraduate research proposal:
- "Development of Graph-Based Algorithms for Ordering Banking Transactions Used in Money Laundering Typology Analysis by the Pernambuco Civil Police (PCPE)."
- Study graph algorithms, data quality, and financial transaction analysis.

Competitive Programming Team Member

2025 – Present

UNICAP

- Study algorithms, data structures, and problem-solving techniques.
- Participate in programming contests individually and in teams.
- Competitions:
- Women's Programming Marathon (MFP 2025)
- Brazilian Programming Contest (SBC 2025 – Phase 0 and Phase 1)

C++ Instructor

Introduction to Programming Logic with C++

- Co-instructor of a 4-hour introductory programming workshop.
- Taught programming fundamentals and problem-solving using C++.
- Prepared educational material and practical exercises for beginners.
- Course Repository: <https://github.com/luisfteixeira11/Minicurso-c3-Introd-a-cpp>

PROJECTS

ExtratorPDF – Brazilian Army (5° CTA) | Team Lead | August 2025 – November 2025

- Led the development team in a project carried out with the Brazilian Army's 5th Communications and Warfare Center (5° CTA).
- Developed a desktop application in Python with a graphical user interface for automated PDF data extraction.
- Used the PyMuPDF library to optimize document processing workflows.
- Coordinated technical decisions and development activities.
- Technologies: Python, PyMuPDF.

DoeVida | Blood donation platform developed as an academic project.

- Developed front-end features using HTML, CSS, and JavaScript.
- Collaborated in the implementation and deployment of the application.
- Published the project online for public access.
- Application: <https://doevidasaude.netlify.app/>

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript, TypeScript

Frameworks & Libraries: React, Next.js, Node.js, Cypress

Tools & Platforms: Git, Docker, AWS, MongoDB, MariaDB, REST APIs

Methodologies: Scrum, Kanban

LANGUAGES

Portuguese — Native English — Advanced (comfortable participating in technical meetings)

AWARDS

Finalist – Women's Programming Marathon (MFP 2025)
